

AmpliGrid GoTaq® PCR System

AmpliGrid GoTaq® PCR System

Features

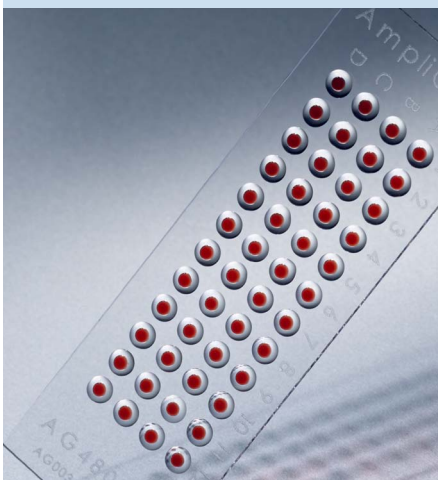

- Pre-optimized for performance and compatibility with AmpliGrid single cell and 1 μ L PCR
- Reliable results using high quality reagents
- Master mix format to minimize hands-on time

Applications

- Single cell and 1 μ L PCR (www.advalytix.com/zell)
- Standard PCR
- Multiplex PCR

Advantages

- Easy to use: pre-optimized chemistry for „ready to go“ 1 μ L AmpliGrid PCR experiments
- Simple workflow: minimum hands-on steps
- Superior sensitivity: target range down to one single cell
- Affordable: highly competitive total cost per data point

AmpliGrid AG480F

AmpliSpeed slide cycler

Order Information

Ref.-No.	Product	Description
OAX04524	AmpliGrid GoTaq® PCR Kit	AmpliGrid GoTaq® PCR Kit. Sufficient for 5 AG480Fslides. No AmpliGrid slides included!
OAX04503	AmpliGrid AG480F	DNA-free microliter reaction slide (5 pcs./pck.), 48 reaction sites each, incl. 5 x 500 μ L sealing solution
