

## AmpliGrid Cell Extraction Kit

AmpliGrid AG480F

### Features

- One-step cell lysis and DNA extraction
- Reduced hands-on time
- Ultra-fast workflow (less than 15 min)
- Closed system – No cross contamination
- Optimized for 1  $\mu$ L AmpliGrid assays

Advanced cell lysis

### Applications

- Multiplex PCR
- Single cell PCR
- Identity testing

AmpliSpeed slide cycler

### Advantages

- Enhanced single cell sensitivity with the AmpliGrid System
- Improves reproducibility
- Increases PCR yields from small sample amounts (+30%)
- Full allelic profiles from two epithelial cells
- Turn-key solution

### Order Information

Ref.-No	Product	Description
OAX04523	Cell Extraction Kit	One step cell lysis & DNA extraction kit (sufficient for 5 AG480F slides)

For research use only. Not for use in diagnostic procedures.
