

Shows & Events

See the AmpliGrid System

In the upcoming months, there are plenty of opportunities to see the AmpliGrid system and talk with an Advalytix representative. If you're attending one of the conferences below, stop by our booth, or [contact us](#) to arrange a meeting.

North America

- **Plant & Animal Genome XVII Conference (booth of The GelCompany)**
San Diego, CA
10-14 January 2009
[Go](#)
- **ABRF 2009 (booth of The GelCompany)**
Memphis, TN
8-10 February 2009
[Go](#)
- **Northwest Regional Cytometry Meeting**

Season's Greetings from Advalytix!

To our customers and friends
around the world,
we wish you a rewarding, successful
New Year and
extend our appreciation
for your business and support
throughout 2008.
Best wishes throughout
this Holiday Season!
The Advalytix Product Team
of Olympus

The Year in Review

2008 was an industrious year for Advalytix! In one year, we've won awards, collaborated with prestigious researchers and investigators, and launched new products. We also produced numerous application reports and articles to increase understanding of the possible uses of our technologies to bring the benefits of single-cell molecular analysis to more scientific endeavors.

If you've missed our news, here are links to some of the year's highlights:

Advalytix was named a winner of the [Innovation Competition 2008](#) by the German Federal Ministry of Education and Research.

Advalytix [researchers collaborated](#) with the University of Texas M.D. Anderson Cancer Center and the University Hospital of Jena, Germany and partnered with ZyGem.

Advalytix extended single cell sensitivity to qPCR analysis with workflows for [Taqman](#) and [SYBR green](#).

Advalytix produced [application reports and articles](#) in collaboration with investigators using AmpliGrid and AmpliSpeed technologies for their research in circulating tumor cells, viral/bacterial connections, HPV, gene expression analysis, forensics and more.

The "[AmpliGrid Certified](#)" Program was born, recognizing FACS facilities with >90% success in accurately placing single cells in AmpliGrid PCR slides.

Seattle, WA
13-14 March 2009

[Go](#)

- [microRNA](#)
Boston, MA
23-25 March 2009

[Go](#)

Europe

- [29. Spurenworkshop der Deutschen Gesellschaft für Rechtsmedizin](#)
Münster, Germany
27-28 February 2009

[Go](#)

[CellEvator](#) was launched, creating a new surface acoustic wave sample mixer for the Becton Dickinson FACS Aria™ cell sorting system.

Advalytix introduced the concept of [Zellvergnügen](#) – the pleasure of single-cell analysis! This simple, sensitive and affordable workflow reduces to just four steps the process for PCR.
